**POSITION OVERVIEW:**

Under supervision of the HES Manager, the IH identifies, reports and recommends corrective action for a wide variety of workplace industrial hygiene factors that may adversely impact employee safety, health and productivity at Mountain Pass facility.

**KEY RESPONSIBILITIES (essential position functions):**

- Carries out work assignments in accordance with Molycorp Safety & Loss Control policy and procedures
- Assesses work place for occupational health hazards by observing work conditions, assessing records, interfacing with operators and supervisors, sampling, and monitoring chemical or physical agents.
- Oversee or collect work place air, water, vapors/gases and dust samples or other potentially toxic materials for analysis. Analyze information of considerable difficulty and draw conclusions.
- Conduct detailed exposure assessments, analyses of operational procedures, equipment and materials
- Perform health and safety inspections and incident investigations and maintain records.
- Develop and recommend appropriate controls for occupational health hazards
- Evaluate and interpret monitoring and sampling results, make determinations, and develops corrective strategies.
- Prepare accurate and complete technical reports of survey findings, and provides recommendations on how to correct hazardous conditions
- Serve as technical expert in chemical analysis, equipment and processes
- Maintain, operate, and calibrate a variety of sampling and monitoring equipment.
- Maintain a current knowledge of Molycorp Safety & Loss Control policies and procedures, MSHA and Cal OSHA regulations, and other pertinent regulations and standard
- Work with the facility management team to ensure compliance with Molycorp policies, MSHA, Cal OSHA and other regulations

**POSITION REQUIREMENTS:**

- 5+ years of experience as an Industrial Hygienist
- Professional certifications (CSP, CIH, CMSP) and/or memberships in Health and Safety Associations
- Familiar with mining and chemical processes
- Proficient in Word, Excel, and PowerPoint
- Knowledge of MSHA and Cal OSHA health standards, codes, and regulations

- Knowledge of methods, procedures, and techniques used in collecting and testing samples such as dusts, mists, fumes, vapors, and noise
- Knowledge of toxicological effects of occupational hazards
- Demonstrated ability to evaluate technical data and prepare reports, and plans
- Bachelor's degree in Industrial Hygiene or related field
- Must be authorized to work in the United States.

**WORKING CONDITIONS:**

- Our facility is at an elevation of 4700 feet
- Department of Labor Demand Category: Very Heavy
- Employees are subject to extreme weather conditions
  - Freezing winter weather
  - Extreme desert summer heat
- Work is in a mine or manufacturing plant setting, which may include exposure to moving mechanical parts, toxic chemicals, risk of electrical shock, explosives, fumes or airborne particles.
- Occasionally may be required to lift moderately heavy objects (up to 30 pounds) during the course of the workday.
